(54) Title: A METHOD FOR MANIPULATION OF OBJECTS WITHIN ELECTRONIC GRAPHIC DOCUMENTS

(57) Abstract: A method of transforming location based objects, such as text, included in a digital source Artwork file (100), for example a geographical map file, and creating a transformed target Artwork file (199). The method is particularly advantageous in converting geographical maps from one language to another. The method includes tools for extracting the required location based objects, for example text elements, from the source file (100), including all pertaining information, into a first intermediate structured database (110), represented for the user as, for example, a structured table. The required transformations are then operated on the extracted objects, partly manually but also automatically creating a transformed second intermediate database (125), which is subsequently integrated with the source file (100) to create a target file (199), which represents, for example, a new map with translated text on new layers.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/IL03/00801

A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : G 06 F 7/00

US CL : 707/102

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

U.S. : 707/100, 101, 102.

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	US 5,666,543 A (GARTLAND) 09 September 1997 (09.09.1997), columns 6-8.	1-31
Y	US 6,339,775 B1 (ZAMANIAN et al) 15 January 2002 (15.01.2002), columns 4-6.	1-31

☐ Further documents are listed in the continuation of Box C.☐ See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&"

document member of the same patent family

Date of the actual completion of the international search

01 March 2004 (01.03.2004)

Date of mailing of the international search report

16 MAR 2004
